"A famous Rock Star dropped by his label, steals his daughters song to save his career"

Written by Ranelle Golden and Shawn Golden

PROJECT SYNOPSIS

Trent Beckett is an up-and-coming Rock Star riding the wave of fame in true rock star fashion partying his way across the world with the band. Unfortunately, his longtime girl-friend takes the ride with him when they face an unexpected pregnancy. Trent knows he doesn't want the child. But Abby Parker does.

This leads to forced marriage, divorce, and estrangement, as Abby raises the child without him. Trent continues on the path of Sex, Drugs, and Rock-n-Roll, leaving the relationship with his growing daughter on the back burner. Until a renegotiated child support settlement brings her back into Trent's life for the obligatory every-other-weekend visit.

His daughter Riley is now a teenager. She visits him but only because she has to. She's found her own love of music and is writing her own songs showing tremendous talent. Trent spends days and nights in a fog of sex and drugs with a little rock-n-roll mixed in. Now add in Riley.

Trent struggles to write the song that will be the next big hit to get him back on the charts. His label is releasing him from his contract. His manager thinks it's time to retire. Hearing Riley's song by accident, he thinks it might be the next chart-topper that could save his career. He doesn't plan on asking her if he can use it. He just takes it. Only he doesn't realize Riley will fight for what's hers. He may just have to take a long hard look at who he really is and what he truly wants in life. His daughter Riley is now a teenager. She visits
